

# **ASV / TEREX RC 30 & PT 30**

## **Compact Track Loader**

### **Wheel Installation Clarification:**

The internal design of the wheel is the same as the OEM wheel, with one exception:

The outer face of the wheel uses a larger dust seal and snap ring. The seal and snap ring is the same size that is used on RC/PT 50 & 60 models and/or CAT 247 & 257 models.

### ***Wheel Assembly Items Needed to Complete the Wheel Installation to be purchased from your local dealer and not provided by Bair Products:***
